CAREER OBJECTIVE:

Motivated undergraduate student with hands-on experience in Python and FastAPI.

Seeking a backend or Python internship role to apply FastAPI-based API development skills while continuing to learn industry best practices.

EDUCATION:

Bachelor's Degree (Pursuing)

Jain (Deemed-to-be University)

Expected Graduation: 2028

CGPA:9.63 / Percentage: 91.49%

TECHNICAL SKILLS

Programming: Python

Backend: FastAPI, REST APIs

Data: Pandas, NumPy

Database: SQL,MongoDB(basic)

Tools: Git, GitHub, Postman, VS Code

PROJECTS

Blog Management System (CRUD Backend)

Python, FastAPI, SQL

- Developed RESTful APIs for creating, reading, updating, and deleting blog posts using FastAPI
- Implemented request validation and structured responses
- Tested APIs using Postman

Renyora – AI Wellness Web Application

Python, API Integration

- Developed backend logic to handle chat requests and responses
- Integrated the Google Gemini API for AI-powered chat functionality
- Implemented secure environment variable handling for API keys
- Collaborated with a teammate using Git and GitHub

Involvements & Participation:

Incpetrix Hackathon (2025)
Reached the final round.

SIH Hackathon (2025)
Participated

SOFT SKILLS

Problem-solving | Willingness to learn | Consistency | Documentation reading
